**Southern European Regional Workshop**  
Defining the needs and means for more  
partnership between Patients, Patient Organisations  
and Other Stakeholders in Clinical Trials  
**24 and 25 March 2010, Athens, Greece**

## PatientPartner

- Coordination and support actions across the health theme:
  - Health-2007-4.1-4: **Identifying patients' needs in the clinical trial context:**
    - *How can patients be better mobilised and empowered in the clinical trials landscape and which are the clinical outcomes that really matters to patients, how can they be integrated into clinical trials.*
    - *The questions should be addressed involving patients, clinicians, regulators, and researchers (industrial and academic) on a broad basis in order to cover a broad spectrum of diseases."*
